As an academy we safeguard and promote the welfare of pupils and staff. We work together with other agencies to ensure adequate arrangements within our academy to identify, assess and support those children who may be suffering from harm.

We recognise that all adults, including temporary staff, volunteers and governors, have a full and active part to play in protecting our pupils from harm, and that the child's welfare is our paramount concern.

All staff members believe that our academy should provide a caring, positive, safe and stimulating environment that promotes the social, moral and physical development of the individual child.
