

Date: Tuesday 31<sup>st</sup> March

Dear Parent/Guardian,

We hope that you and your family are safe during this time. I'm writing to you regarding classwork for Social Sciences subjects; **Psychology, Sociology and Health and Social Care (HSC)**. Our team have set up **Google Classrooms**, which students can access through logging in with their student email and download as an app on their phone.

### **Online Learning**

We have created **Foundation classrooms for our future Y10 and Y12's** starting with us in September 2020 and would like to invite students to use this time to prepare. Each week we will be posting resources and an assignment for students to complete. There is also weekly content for our **existing Y10 and Y12's** with work being set at the start of the week and assessed at the end of the week. This is essential for future progression onto the second year of the course.

There is also work for our **existing Y11 and Y13 students**, in order to be able to complete the content for the year and until we have more guidance from Ofqual as to how grades will be allocated. We would also like to take this opportunity to thank our Y11 and Y13 students and wish them every success in their future!

We are also making use of free online learning packages to cover some of the content or as extension work, this is through **Seneca**. Students can join this for free using their student emails.

Below are the codes needed (email invites have been sent), please encourage your son/daughter to complete compulsory work set (Ideally 3 hrs per week GCSE and 5 hrs per week A level/BTEC):

If there is anything we can do to help, please get in touch with myself. This is a challenging time for us all, but an opportunity for Social Sciences to be used and applied in everyday life. Support for mental health can be found on the Government and NHS' websites, Rethink, Mind, Young Minds (particularly for adolescents) and others.

Kind regards,

*M Satchwell*
